1. Introduction

1.1 BDSwiss Holdings PLC (hereafter “the Company”) is an investment firm that operates as broker. The Company is incorporated (Certificate of Incorporation No. HE300153) in the Republic of Cyprus through the Department of Registrar of Companies and Official Receiver. BDSwiss Holdings PLC is authorised and regulated by the Cyprus Securities and Exchange Commission (hereafter “CySec”) with License No. 199/13 and operates under the Markets in Financial Instruments Directive (EU Directive 2004/39/EC).

1.2 This Policy is not intended to, and does not, create third party rights or duties that would not exist if the Policy had not been made available, nor does it form part of any Contract between the Company and any Client.

2. Purpose

The purpose of this Policy is to specify the procedures put in place by the Company, for identifying and responsibly managing and controlling and, where necessary, disclosing the conflicts of interests arising in relation to its business and to reduce the risk of client disadvantage and reduce the risk of legal liability, regulatory censure or damage to Company’s commercial interests and reputation and to ensure that it complies with legislative requirements and the departmental and general procedures which are set by its Internal Procedures Manual.

3. Legal Framework

In accordance with Directive DI144-2007-01, CIFs are required to establish, implement and maintain an effective Conflicts of Interest Policy setting out in writing and appropriate to the size and organisation of the CIF and the nature, scale and complexity of its business. In addition, according to the Investment Services Activities and Regulated Market Law of 2007 (hereafter “the Law”), CIF’s must take all reasonable steps to identify conflicts of interest between itself, including its managers and employees, tied agents or other relevant persons, as well as any person directly or indirectly linked to them by control, and their clients or between one client and another, that arise in the course of providing any investment and ancillary services.

In this respect, CIF’s must establish adequate policies and procedures sufficient to ensure compliance, including its managers, employees, tied agents and other relevant person(s), with its obligations pursuant to the Law and the directives issued pursuant to this Law, as well as appropriate rules governing personal transactions by such persons.

4. Policy

All employees of the Company must on the commencement of their employment, read and fully understand the Policy. All employees of the Company are obliged to register their acceptance of having read and understood the Policy in a register, which is to be filed and managed by the Chief Executive Officer of the Company. Any employee that suspects any Conflict of Interest must immediately inform the Chief Executive Officer who will determine if any conflict does exist or has the potential to arise and will state the reasoning for their findings in a file kept in storage for referral to the Commission should such need arise. The Company and its employees who are involved in investment research must not:

- Act as an inducement;
- Promise issuers favorable coverage.

If any draft investment reports contain recommendations or target prices, the employees must not review the research material, other than for the purpose of verifying its compliance with the legal obligations.

In particular, the Company defines a Conflict of Interest as any situation where either the Company or an individual is in a position to exploit a professional or official capacity in some way for either corporate or personal benefit. Situations where conflicts of interest can occur include the following:

- (a) The Company or a relevant person, or a person directly or indirectly linked by control to the Company, is likely to make a financial gain or avoid a financial loss, at the expense of the client.
- (b) The Company or a relevant person, or a person directly or indirectly linked by control to the Company, has an interest in the outcome of a service provided to the client, or of the transaction carried out on behalf of the client, which is distinct from the client's interest in that outcome.
- (c) The Company or a relevant person, or a person directly or indirectly linked by control to the Company, has a financial or other incentive to favour the interest of another client or group of clients over the interests of the client.
- (d) The Company or a relevant person, or a person directly or indirectly linked by control to the Company, carries on the same business as the client.
- (e) The Company or a relevant person, or a person directly or indirectly linked by control to the Company, receives or will receive from a person other than the client an inducement in relation to a service provided to the client, in the form of

money, goods or services, other than the standard commission or fee for that service.

Relevant person in relation to the Company means any of the following persons:

- (a) a member of the board of directors, partner or equivalent, manager or tied agent of the Company;
- (b) a member of the board of directors, partner or equivalent, or manager of any tied agent of the Company;
- (c) an employee of the Company or of a tied agent of the Company, as well as any other natural person whose services are placed at the disposal and under the control of the Company or a tied agent of the Company who is involved in the provision by the Company of investment services or/and the performance of investment activities;
- (d) a natural person who is directly involved in the provision of services to the Company or to its tied agent under an outsourcing arrangement for the purpose of the provision by the Company of investment services or/and the performance of investment activities;

The affected parties if a Conflict of Interest arises can be the Company, its employees or its clients. More specifically, a conflict of interest may arise, between the following parties:

- (a) Between the client and the Company.
- (b) Between two clients of the Company.
- (c) Between the Company and its employees.
- (d) Between a client of the Company and an employee/manager of the Company.
- (e) Between Company's Departments.

Conflicts of Interest can occur in a number of situations, for example:

- The Company or a relevant person or a person directly or indirectly linked by control to the Company is likely to sustain an overall financial loss or avoid a financial loss, by executing a client's specific order.
- The Company or a relevant person or a person directly or indirectly linked by control to the Company is likely to sustain an overall financial gain by not executing a client's specific order.

- The market moves to a direction of a point/timing when by executing client's order will result in a financial loss for the Company.
- The Company's hedging policy is affected negatively by the market movement and as a result client's orders are rejected in order to prevent a financial loss for the Company.
- The Company may be matching the Client's Order with that of another Client by acting on such other Client's behalf as well as on the Client's behalf.
- The Company may use entities which are members of its group as counterparties to certain transactions.

5. Personal Transactions of Employees

All employees of the Company that are involved in research or other investment activities must be aware of the restrictions on personal transactions detailed below. This section also includes personal transactions which may be performed by persons who are employed by companies which perform an outsourced activity to the Company, if any. If any prohibited personal transactions are entered into, the Company must be notified promptly.

Employees of the Company that are involved in the provision of investment services and the dissemination of investment research or other activities must not enter into the personal transactions that which will cause the following:

- enter into a transaction prohibited under section 9 of the Insider Dealing and Market Manipulation (Market Abuse) Law N.166(I)/2005,
- misuse or cause improper disclosure of confidential information,
- enter in a transaction that is likely to conflict with any obligations of the Company, or the employee that are stated under the law.

Where the employee has come into contact with information which is not publicly available to clients or cannot readily be inferred from information that is so available, the employees must not act or undertake personal transactions or trade, other than as market makers acting in good faith and in the ordinary course of market making, or in the execution of an unsolicited client order, on behalf of any other person, including the Company.

The employees must not disclose any opinion other than in the normal course of business, if the person who is given the opinion is likely to enter into a transaction which is contrary to the above. The employee also should not provide an advice or provide to anyone any information, other than in the proper course of his/her employment, especially if it is clear

that the person who is receiving such information will advise another party who might acquire or dispose of financial instruments to which that information relates.

Any client's orders that have been relayed to any employees of the Company must not be disclosed to another party. An employee of the Company who has knowledge of a potential client's order must not carry out a personal transaction that is the same as the client order, if this will cause a conflict of interest.

6. Reporting Conflicts of Interest

In the case of identification of a possible conflict of interest, a staff member must refer it initially to his immediate supervisor to assist in the assessment of a material risk of damage and send a completed Conflict of Interest Notification Form together with full details to allow regulatory scrutiny, of:

- Corrective and preventive actions;
- How these actions were considered appropriate;
- Any conditions imposed; and
- Whether there are still ongoing conflicts, how these are being managed and advised to the client;

to the Head of Compliance for inclusion within the reports reviewed by the Board of Directors.

7. Management of Conflicts of Interest

The Company has established suitable and adequate internal procedures for minimizing any potential conflicts of interest which include the following:

a. Independence

The following measures have been adopted by the Company for ensuring the requisite degree of independence:

- Measures to prevent or control the exchange of information between relevant persons engaged in activities involving a risk of a conflict of interest (i.e. by establishing a Chinese wall)
- Separate supervision of relevant persons whose principal functions involve carrying out activities on behalf of, or providing services to, clients whose interests may conflict, or who otherwise represent different interests that may conflict, including those of the Company.

The Company's department whose interests may conflict with clients are:

- i. Dealing Room
- Removal of any direct link between the remuneration of relevant persons principally engaged with one activity and the remuneration of, or revenues generated by, different relevant persons principally engaged in another activity, where a conflict of interest may arise in relation to those activities:
 - ii. Dealing room employees do not relate their remuneration with clients' performance.
 - Measures to prevent or limit any person from exercising inappropriate influence over the way in which a relevant person carries out investment or ancillary services or activities. Additionally, the person who decides or influences an individual's bonus may exert undue influence over that individual's integrity of judgment.
 - Measures to prevent or control the simultaneous or sequential involvement of a relevant person in separate investment or ancillary services or activities such as reception and transmission of clients' orders and tasks such as portfolio decision making and calculating performance.
 - Segregation of duties that may give rise to conflicts of interest if carried on by the same individual.

Chinese Walls

Chinese walls are essentially information barriers which are used to prevent inside or highly confidential information possessed by one part of the business from being inappropriately passed to, or obtained by, another part of the business.

When a Chinese wall is used as a way of managing conflicts of interests, individuals on the other side of the wall will not be regarded as being in possession of knowledge denied to them as a result of the Chinese wall. For example, where arrangements have been put in place to ensure that entities belonging to the same group operate independently of each other with effective Chinese walls, the entities shall not be deemed to have knowledge of each other for conflicts of interest purposes.

b. Disclosure of conflict of interest

When the measures taken by the Company to manage conflicts of interest are not sufficient to ensure, with reasonable confidence that risks of damage to clients' interest will be prevented, the Company proceeds with the disclosure of conflicts of interest to the

client. Prior to carry out a transaction or provide an investment or an ancillary service to a client, the Company must disclose any actual or potential conflict of interest to the client. The disclosure will be made in sufficient time and in a durable mean and shall include sufficient detail, taking into account the nature of the client, to enable him to take an informed decision with respect to the investment or ancillary service in the context of which the conflict of interest arises.

Clients will be given the opportunity to decide on whether or not to continue their relationship with us with no unreasonable obstacles.

c. Marketing Communication

The Company shall ensure that any such recommendation contains a clear and prominent statement that (or, in the case of an oral recommendation, to the effect that) it has been prepared in accordance with legal requirements designed to promote the independence of investment research and that it is not subject to any prohibition on dealing ahead of the dissemination of investment research.

The Company shall ensure that the said communication is reviewed and approved by the Compliance Officer prior to distribution.

d. Record keeping

The Company keeps and regularly updates a record of the kinds of investment and ancillary service or investment activity carried out by or on behalf of the Company in which a conflict of interest entailing a material risk of damage to the interests of one or more clients has arisen, or, in the case of an ongoing service or activity, may arise.
